University Center Barika,
Faculty of Science and Technology
Department of Computer Science

Module :
Human Machine Interface
Planned Projects 2026-2027

Dr. BERHOUM Adel

Mini-Projects 2026/2027 : Adaptive Interfaces

Num	:	Titel of Projet	Batas Notes
01	:	The Dialogue Controller	Definition and role
02	:	Presentation of the Seeheim model	
03	:	Presentation of the MVC model	
04	:	Presentation of agent models	
05	:	Bastien and Scapin's ergonomic criteria	
06	:	Coutaz's golden rules	
07	:	Comparative study between single-user and multi-user HMI	
08	:	The UCD method (user-centered design	

Project Preparation Guidelines

The project must be prepared according to the following methodological requirements:

- **Project Format:**
  - The project must be submitted in **PDF format**.
  - The complete project must not exceed **16 pages**.
- **Cover Page:** The project must begin with a cover page containing the following information:
  - Project title.
  - Student's name(s).
  - Academic level and specialization.
  - University or institution name.
  - Supervisor's name.
  - Academic year.
- **Abstract:**
  - The abstract must not exceed **200 words**.
  - It should briefly present the project topic, problem or research objective, methodology, and main findings or conclusions.
- **Introduction:** The introduction should include:
  - A general background of the topic.

  - The problem statement or research question.
  - The importance and motivation of the project.
  - The main objectives of the project.
  - A brief overview of the organization of the project.

- **Main Body:**
  - The main body should be organized into appropriate **sections and subsections**.
  - It should present the theoretical background and, when applicable, the practical or experimental part of the project.
  - The content should be presented in a clear and logical sequence.
  - Relevant scientific information should be supported by appropriate references.

- **Conclusion:** The conclusion should:
  - Summarize the main points of the project.
  - Present the main findings or conclusions.
  - Highlight the significance of the results.
  - Suggest possible future work or research perspectives, when appropriate.

- **References:**
  - The project must contain at least **6 references**.
  - At least **3 references must have been published within the last 5 years**.
  - References should preferably come from reliable academic and scientific sources, such as peer-reviewed journal articles, academic books, and conference papers.
  - A consistent citation and referencing style must be used throughout the project.

- **General Organization and Presentation:**
  - The project must follow a clear and logical structure.
  - The writing should use an appropriate academic style.
  - All sections and subsections should be properly numbered and formatted.
  - The project should be carefully proofread for language, grammar, and formatting errors.
  - The final document must be converted and submitted as a PDF file.
  - Project Evaluation: (5 points.)
    1. PDF Project: 3,5/5 points/
    2. Project Presentation (PTT): 1,5/5 points.

Deadline for receiving projects: 12-12-2026 - 23:59

We consider projects that use Latex in writing.
